

Announcing the New MCCCDC Procurement Portal

Maricopa County Community College District (MCCCDC) has partnered with Bonfire to create a new MCCCDC Procurement Portal (<https://maricopa.bonfirehub.com/portal/?tab=openOpportunities>). The portal will allow Suppliers to access Invitation for Bids and Request for Proposals opportunities and submit sealed bids and proposals to MCCCDC securely and electronically.

For suppliers that are already a Bonfire user, will require no additional registration. You will be able to view all current MCCCDC opportunities as they become available. Suppliers new to Bonfire may register your company by using the Bonfire New Vendor Registration link on the MCCCDC Procurement Portal (<https://maricopa.bonfirehub.com/portal/?tab=openOpportunities>).

Registration in the MCCCDC Procurement Portal is exclusively for Suppliers to access formal bids and proposals only. Suppliers will still need to be registered in the MCCCDC Supplier Portal (<https://procurement.maricopa.edu/supplier-registration>) in order to receive any potential purchase orders after an award.

Registration is easy and free. MCCCDC is excited about the transition to this streamlined electronic bid process and the improved access to opportunities for our Suppliers.
