

Warning to our Supplier Community - July 10th, 2019

We have been notified by businesses that they have received quotation requests from an individual claiming to be David Martin. The current email address they are using shows "David Martin". However, scammers disguise accounts in various ways. An additional spam email that has been used in the past is dmartin@maricopac.org. They are attempting to persuade businesses to ship them items on credit by providing a fake Maricopa Community College Purchase Order.

Please disregard any message received from this address and notify [MCCCD Procurement](#)
