

Amendment to Contract

AZFLIS Rate & Policy Sheet

Please find the enclosed proposed rates for the 2024-2025 School year through end of our current RFP with MCCCD.

Note: Due to the High Demand for ASL Interpreting Services at this time, our Agency is requesting our Customers to provide as much notice as possible when requesting services. Our Agency works hard to provide services any time they are requested, and we welcome you to reach out if you have an urgent need. Having 7 business days or more will help us be most effective in providing you and your team with the services you need during this time. Thank you and we appreciate your continued support and partnership.

*Legal Interpreting Update: As of January 2023, the State of Arizona has updated the requirements to provide Legal ASL Interpretation. This has significantly limited our availability in this setting. Please consider making your request 3 or more weeks in advance if possible. We will work on any request that comes in, no matter how short notice it is, but for jury duty, hearings, etc, the more notice we have, the more successful we will be at securing services appropriate for your needs.

*Certified Deaf Interpreter (CDI) – Often times, a Deaf Individual can benefit from having an Interpreter that uses ASL as their first language rather than English. This is often the best way to ensure effective communication for some individuals. In these cases, a CDI (Deaf Interpreter) will team with a Hearing Interpreter (HI). The HI listens to English, interprets spoken English to signed ASL to the DI. The DI will take the ASL and meet the needs of the consumer. In this way, they will team together back and forth to provide the clearest communication. You can reference the RID (Registry of Interpreters for the Deaf) standard practice paper in regard to using a CDI here.

AZFLIS Rate Updates:
