

AMENDMENT NUMBER 1
TO AGREEMENT CNR01447
BETWEEN
EDUCATIONAL & INSTITUTIONAL COOPERATIVE SERVICES, INC.
AND
FIELD TURF USA, INC.

This AMENDMENT NUMBER ONE ("Amendment") is made between Educational & Institutional Cooperative Services, Inc., 2 Jericho Plaza, Suite 309, Jericho, New York 11753 ("E&I") and Field Turf USA, Inc., a corporation with offices located at 7445 Cote-de-Liesse Road, Suite 200, Montreal, QC H4T 1G2 ("Supplier").

WHEREAS, E&I and Supplier are parties to an Agreement for Turf Surfaces – Synthetic, Natural, Installation and Services dated December 1, 2017 ("Agreement"); and

WHEREAS, the Parties wish to amend said Agreement under the following terms and conditions; and

NOW THEREFORE, the Parties do hereby mutually agree as follows:

- 1. The Not to Exceed Pricing matrix within Attachment A is hereby deleted in its entirety and replaced with the new Not to Exceed Pricing matrix contained herein. Highlighted items denote new products and/or services.
2. Add the following verbiage to the General Pricing Notes within Attachment A: "11. New products and/or services may be added to the Agreement at any time during the contract term. All new products and/or services must be approved by E&I prior to being added to the Agreement. Once approved by E&I, all new products and/or services shall be considered part of the Agreement. Discounts or net pricing for any new products and/or services must be comparable to similar existing products and/or services within the Agreement."
3. Except as provided in this Amendment, all other terms and conditions of the Agreement, as amended, remain unchanged and in full force and effect. This Amendment becomes binding when signed by both parties.
4. Each Party agrees that the electronic signatures whether digital or encrypted, of the Parties included in this Amendment are intended to authenticate this writing and to have the same force and effect as manual signatures.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment as of November 1, 2018.

FIELD TURF USA, INC.

THE ULTIMATE  
SURFACE EXPERIENCE

### **FieldTurf E&I RFP #683392 General Pricing Notes:**

1. Shipping and Freight to Canada, Hawaii, Alaska or other areas outside of the continental US is not included in standard Primary pricing and will be an additional cost based on site location. Additional shipping costs will be based on the cost to transport equipment and materials from the closest US port to the job site. Additional costs may also be added for crew transportation and accommodations to any site outside of the continental US.
2. FieldTurf offers financing options for customers who qualify.
3. OPTIONAL Pricing (Hot List Pricing): Volume Discounts are available on supply and installation of turf surfacing and related site work on a case-by-case basis and will be discussed with owner and E&I to determine an acceptable discount based on the applicable volume.
4. Pricing accounts for domestic shipping, use tax, state specific and wage rates (Davis Bacon, non-prevailing wages, prevailing wages).
5. FieldTurf works with E&I to track sales by sending E&I copies of sales reports on status of CAF remittance.
7. If site work is required: RS MEANS will be used if Alternative Method of Costing is not acceptable for the base construction. RS MEANS is self contained and consists of a turn-key solution that includes a complete line-item listing of all the products, supplies, material, equipment, services, accessories and options with their description, specification, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. FieldTurf reserves the right to offer a discount or "adjustment down" to the RS MEANS calculation to account for volume discounts or to stay within standard market pricing.
8. FieldTurf maintains the right to add Administrative and or Construction Management fees to projects that include site work.
9. Pricing and warranty applies to turf fields that are 40,000sf or more. For projects less than 40,000 sf, owner, E&I and FieldTurf can discuss a possible adjustment to pricing that all agree upon if necessary. EasyTurf sq. foot pricing applies for a minimum purchase of 4000 sf. For projects that do not meet the minimum requirement, owner, E&I and FieldTurf can discuss a possible adjustment to pricing that all agree upon. Pricing is for track projects over 3500 sy and applies to only standard black or red colors. Custom color track surfacing is available at an increased price per square yard. Pricing is for outdoor turf/track/court projects. Indoor projects may include additional mobilization and masking costs.

THE ULTIMATE  
SURFACE EXPERIENCE

10. New Construction – Sq. foot/yard pricing is for supply and installation of sports surfacing only. FieldTurf is prepared to offer turn key solutions for the construction of running tracks, courts, and fields through use of RS Means. The best value pricing for base or civil work is obtained through these costing methods.

11. New products and/or services may be added to the Agreement at any time during the contract term. All new products and/or services must be approved by E&I prior to being added to the Agreement. Once approved by E&I, all new products and/or services shall be considered part of the Agreement. Discounts or net pricing for any new products and/or services must be comparable to similar existing products and/or services within the Agreement.

Site work or new construction may include but is not limited to: removal and disposal of existing sports surface, lighting, demolition, excavation, rock base aggregate, top rock, asphalt, concrete, sidewalks, turf shock absorption underlayment such as e-layer or padding, tie in to existing drainage, drainage systems, conduits, fencing, crack repair, asphalt repair, etc. which can be purchased through RS MEANS.

Hockey Speed	Hockey Speed	Hockey Speed by FieldTurf was engineered specifically for field hockey, however, numerous sports can benefit from this all weather system and its uniform, predictable levels of traction. In designing Hockey Speed, we consulted with experts in the hockey world to determine the best characteristics desired for superior play at the elite level. The Hockey Speed product was developed for field hockey by focusing on three key hockey-specific-elements: Superior Ball Control, Easy Stick Movement, and Excellent Traction. Hockey Speed takes field hockey surfacing to a new level of performance, quality, and value. Designed to provide the best playing characteristics of nylon "wet performance" systems, Hockey Speed is more economical and better designed than competing systems. Pad or foam underlayment required and additional cost.				
FieldTurf Hockey Gold	FieldTurf Hockey Gold	The FieldTurf Hockey Gold System is a revolutionary turf system- designed specifically for the highest levels of field hockey play. It is the industry's premiere field hockey offering. The product is built with the Elliptic fiber- a uniquely engineered filament with the same reliable, built-in durability characteristics that FieldTurf products have become known for. Shaped like a lens, the fiber is texturized through a high heat process to create its crimped effect. Within the water-based and sand-dressed FieldTurf Hockey Gold System, the Elliptic fiber retains its memory to hold its shape, providing a truly uniform and non-directional surface with exceptional durability. Excellent ball performance and low abrasion, better non-directional ball roll and speed than other traditional field hockey turfs, premium hockey performance, water based or sand dressed options for desired performance. Pad or foam underlayment required and additional cost.	Per Sq. Ft.	\$9.70	9.00%	\$8.83
			Per Sq. Ft.	\$8.65	9.00%	\$7.87

Amorim-CoolPlay V3		CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Cork Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. (No additional pad required)	Per Sq. Ft.	\$0.75	9.00%	\$0.68
E-Core/EPDM		EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$1.50	9.00%	\$1.37
EasyFill		EASY FILL Coated Sand	Acrylic internal coated sand. Can be colored, UV resistant. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.05	10.00%	\$3.65
EnviroFill		EnviroFill	Composed of coated sand (granules), our EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$2.65	9.00%	\$2.41
Sustainable Performance Solutions-ECO Grind		ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft. \$	2.20	9.00%	\$2.00
SOFTER SPA- EcoGreen Plus Environmental Infill (TPE Infill)		ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$3.25	9.00%	\$2.96
Colorex- ECO MAX Infill		ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.00	9.00%	\$2.73
DOF Cork-Purefill Infill		PUREFILL	FieldTurf's PureFill cork infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$1.80	9.00%	\$1.64

Beynon- BSS 200		BSS 200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$ 55.00	9.0000%	\$ 50.05
Beynon-BSS 300		BSS 300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impereable resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$ 73.00	9.0000%	\$ 66.43
Beynon-BSS 1000 10mm		BSS 1000 10mm	All-weather track surface. The BSS 1000 is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$ 79.00	9.0000%	\$ 71.89
Beynon- BSS 1000 13mm		BSS 1000 13mm	The Olympic-caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to complete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$ 98.00	9.0000%	\$ 89.18

FieldTurf USA, Inc.			<p><b>All Pricing is NOT TO EXCEED and includes supply, install, and freight within continental US. FieldTurf will offer the lowest price possible for each customer based on their location, project details, economies of scale opportunities, and wage rate requirements. The pricing provided below is the maximum per unit cost.</b></p>				
<b>FieldTurf E&amp;I RFP: #683392 General Pricing Notes:</b>							
1. Shipping and Freight to Canada, Hawaii, Alaska or other areas outside of the continental US is not included in standard Primary pricing and will be an additional cost based on site location. Additional shipping costs will be based on the cost to transport equipment and materials from the closest US port to the job site. Additional costs may also be added for crew transportation and accommodations to any site outside of the continental US.							
2. FieldTurf offers financing options for customers who qualify.							
3. OPTIONAL Pricing (Hot List Pricing): Volume Discounts are available on supply and installation of turf surfacing and related site work on a case-by-case basis and will be discussed with owner and E&I to determine an acceptable discount based on the applicable volume.							
4. Individual state Price per sq. foot cost accounts for domestic shipping, use tax, state specific and wage rates (Davis Bacon, non-prevailing wages, prevailing wages).							
5. FieldTurf works with E&I to track sales by sending E&I copies of sales reports on status of administrative fee remittance.							
6. If site work is required: RS MEANS will be used if Alternative Method of Costing is not acceptable for the base construction. RS MEANS is self contained and consists of a turn-key solution that includes a complete line-item listing of all the products, supplies, material, equipment, services, accessories and options with their description, specification, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. FieldTurf reserves the right to offer a discount or "adjustment down" to the RS MEANS calculation to account for volume discounts or to stay within standard market pricing.							
7. FieldTurf maintains the right to add Administrative and or Construction Management fees to projects that include site work.							
8. Pricing and warranty applies to turf fields that are outdoors and 40,000sf or more. For projects that are indoors and less than 40,000 sf, owner, E&I and FieldTurf can discuss a possible adjustment to pricing that all agree upon if necessary. EasyTurf sq. foot pricing applies for a minimum purchase of 4000 sf. For projects that do not meet the minimum requirement, owner, E&I and FieldTurf can discuss a possible adjustment to pricing that all agree upon. Pricing is for track projects over 3500 sy and applies to only standard black or red colors. Custom color track surfacing is available at an increased price per square yard.							
9. New Construction – Sq. foot/yard pricing is for supply and installation of sports surfacing only. FieldTurf is prepared to offer turn key solutions for the construction of running tracks, courts, and fields through use of RS Means. The best value pricing for base or civil work is obtained through these costing methods.							
10. Site work or new construction may include but is not limited to: removal and disposal of existing sports surface, lighting, demolition, excavation, rock base aggregate, top rock, asphalt, concrete, sidewalks, turf shock absorption underlayment such as e-layer or padding, tie in to existing drainage, drainage systems, conduits, fencing, crack repair, asphalt repair, etc. which can be purchased through RS MEANS.
