4. PREPARATION OF OFFER:

Erasures, interlineations, or other modifications of the offer must be initialed in original ink by the authorized person signing the offer. No offer will be altered, amended or withdrawn after the specified offer due date and time. The City is not responsible for Offeror's errors or omissions.
- 4.3. All time periods stated as a number of days will be calendar days.
- 4.4. It is the responsibility of all Offerors to examine the entire solicitation and seek clarification of any requirement that may not be clear and to check all responses for accuracy before submitting an offer. Negligence in preparing an offer confers no right of withdrawal after due date and time. Offerors are strongly encouraged to:
 - 4.4.1. Consider applicable laws and/or economic conditions that may affect cost, progress, performance, or furnishing of the products or services.
 - 4.4.2. Study and carefully correlate Offeror's knowledge and observations with the solicitation and other related data.
 - 4.4.3. Promptly notify the City of all conflicts, errors, ambiguities, or discrepancies that Offeror has discovered in or between the solicitation and other related documents.

SECTION I - INSTRUCTIONS

solicitation. Offers offering less than any minimum specifications or criteria specified are not responsive and should not be submitted.

- 4.4.6.** Offer responses submitted for products considered by the seller to be acceptable alternates to the brand names or manufacturer's catalog references specified herein must be submitted with technical literature and/or detailed product brochures for the City's use to evaluate the products offered. Offers submitted without this product information may be considered as non-responsive and rejected. The City will be the sole judge as to the acceptability of alternate products offered.
- 4.4.7.** Prices will be submitted on a per unit basis by line item, when applicable. In the event of a disparity between the unit price and extended price, the unit price will prevail unless obviously in error.

- 5. EXCEPTIONS:** Offerors must conform to all of the requirements specified in the solicitation. The City encourages Offerors to send inquiries to the procurement officer rather than including exceptions in their Offer.

- 5.1.** If an Offeror has exceptions based on the scope then Offeror must include a list of exceptions to the requirements of the solicitation and attachment documents, if any, stated on a separate page labeled "Exceptions Statement." Offeror must identify the reason for the requested change, provide alternate language and provide an explanation.
- 5.2.** It is the intent of the City to award a contract on a fair, competitive basis. For this reason, the City may view any "Exception" in response to any material conditions or requirement of the solicitation, as an attempt by the Offeror to vary the terms of the solicitation which, in fact, may result in giving the Offeror an unfair advantage. For this reason, the City will, at its option, not allow exceptions to any material requirement if, in the opinion of the City, the exceptions alter the overall intent of the solicitation, unless the exception would be of material benefit to the City. Additionally, the City may, at its option, deem any submittal non-responsive based on exceptions by the Offeror.

SECTION I - INSTRUCTIONS

- 6. INQUIRIES:** All questions that arise relating to this solicitation should be directed via email to the Procurement Officer and must be received by the due date indicated in the Schedule of Events. The City will not consider questions received after the deadline.

The City will not provide any further notification to unsuccessful Offerors.

- 14. AWARD OF CONTRACT:** Unless otherwise indicated, award(s) will be made to the highest scored responsive, responsible Offeror(s) who are regularly established in the service contained in this solicitation and who have demonstrated the ability to perform the required service in an acceptable manner.

SECTION I - INSTRUCTIONS

Notwithstanding any other provision of this solicitation, the City reserves the right to: (1) waive any immaterial defect or informality; or (2) reject any or all offers or portions thereof; or (3) reissue a solicitation.

A response to a solicitation is an offer to contract with the City based upon the terms, conditions, and specifications contained in the City's solicitation. Offers do not become contracts until they are executed by the Deputy Finance Director or Department Director. A contract has its inception in the award, eliminating a formal signing of a separate contract. For that reason, all of the terms, conditions and specifications of the procurement contract are contained in the solicitation, and in any addendum or contract amendment.

15. SOLICITATION TRANSPARENCY POLICY:

- 15.1.** Commencing on the date and time a solicitation is published, potential or actual offerors or respondents (including their representatives) shall only discuss matters associated with the solicitation with the Mayor, any members of City Council, the City Manager, any Deputy City Manager, or any department director directly associated with the solicitation (including in each case their assigned staff, except for the designated procurement officer) at a public meeting, posted under Arizona Statutes, until the resulting contract(s) are awarded to all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City's intent to reissue the same or similar solicitation.
- 15.2.** As long as the solicitation is not discussed, Offerors may continue to conduct business with the City and discuss business that is unrelated to the solicitation with the City staff. Offerors may not discuss the solicitation with any City employees or evaluation panel members, except the procurement officer.
- 15.3.** Offerors may discuss their proposal or the solicitation with the Mayor or one or more members of the Phoenix City Council, provided such meetings are scheduled through the Procurement Officer, and are posted as open meetings with the City Clerk at least 24 hours prior to the scheduled meetings. The City Clerk will be responsible for posting the meetings. The posted notice shall identify the participants and the subject matter, as well as invite the public to participate.
- 15.4.** With respect to the selection of the successful Offerors, the City Manager and/or City Manager's Office will continue the past practice of exerting no undue influence on the process. In all solicitations of bids and proposals, any direction on the selection from the City Manager

SECTION I - INSTRUCTIONS

and/or City Manager's Office and Department Head (or representative) to the proposal review panel or selecting authority must be provided in writing to all prospective Offerors.

15.5. This policy is intended to create a level playing field for all Offerors, assure that contracts are awarded in public, and protect the integrity of the selection process. **PROPOSERS THAT VIOLATE THIS POLICY SHALL BE DISQUALIFIED.** After official Notice is received by the City for disqualification, the Proposer may follow the Protest process, unless the Solicitation is cancelled without notice of intent to re-issue.

15.6. "To discuss" means any contact by the proposer, regardless of whether the City responds to the contact. Offerors that violate this policy shall be disqualified until the resulting contract(s) are awarded, or all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City's intent to reissue the same or a similar solicitation. The City interprets the policy as continuing through a cancellation of a solicitation until Council award of the contract, as long as the City cancels with a statement that the City will rebid the solicitation.

16. PROTEST PROCESS

16.1. Offeror may protest the contents of a solicitation no later than seven days before the solicitation deadline when the protest is based on an apparent alleged mistake, impropriety or defect in the solicitation. Protests filed regarding the solicitation may be addressed by an amendment to the solicitation or denied by the City. If denied, the opening and award will proceed unless the City determines that it is in the City's best interests to set new deadlines, amend the solicitation, cancel or re-bid.

16.2. Therefore, unless otherwise notified by a formal amendment, the Protester must adhere to all solicitation dates and deadlines, including timely filing of an offer, regardless of filing a protest.

16.3. Offeror may protest an adverse determination issued by the City regarding responsibility and responsiveness, within seven days of the date the Offeror was notified of the adverse determination.

16.4. Offeror may protest an award recommendation if the Offeror can establish that it had a substantial chance of being awarded the contract and will be harmed by the recommended award. The City will post recommendations to award the contract(s) to a particular Offeror on the

SECTION I - INSTRUCTIONS

City's website. Offeror must submit award protests within seven days after the posting of the award recommendation, with exceptions only for good cause shown, within the City's full and final discretion

16.5. All protests will be in writing, filed with the Procurement Officer identified in the solicitation and include the following:

- Identification of the solicitation number;
- The name, address and telephone number of the protester;
- A detailed statement describing the legal and factual grounds for the protest, including copies of relevant documents;
- The form of relief requested; and
- The signature of the protester or its authorized representative.

16.6. The Procurement Officer will render a written decision within a reasonable period of time after the protest is filed. The City will not request City Council authorization to award the contract until the protest process is complete. All protests and appeals must be submitted in accordance with the City's Procurement Code, (Phoenix City Code, Ch. 43), and administrative regulation 3.10 and any protests or appeals not submitted within the time requirements will not be considered. Protests must be filed with the Procurement Officer.

17. PUBLIC RECORD: All Offers submitted in response to this solicitation will become the property of the City and become a matter of public record available for review pursuant to Arizona State law. If an Offeror believes that a specific section of its Offer response is confidential, the Offeror will isolate the pages marked confidential in a specific and clearly labeled section of its Offer response. An Offeror may request specific information contained within its Offer is treated by the Procurement Officer as confidential provided the Offeror clearly labels the information "confidential." To the extent necessary for the evaluation process, information marked as "confidential" will not be treated as confidential. Once the procurement file becomes available for public inspection, the Procurement Officer will not make any information identified by the Offerors as "confidential" available to the public unless necessary to support the evaluation process or if specifically requested in accordance with applicable public records law. When a public records request for such information is received, the Procurement Officer will notify the Offeror in writing of any request to view any portion of its Offer marked "confidential." The Offeror will have the time set forth in the notice to obtain a court order enjoining such disclosure. If the Offeror does not provide the Procurement Officer with a court order enjoining release of the information during the designated time, the Procurement Officer will make the information requested available for inspection.

SECTION I - INSTRUCTIONS

- 18. LATE OFFERS:** Late Offers must be rejected, except for good cause. If a late Offer is submitted, the Department will document the date and time of the submittal of the late Offer, keep the Offer and notify the Offeror that its Offer was disqualified for being a late Offer.
- 19. RIGHT TO DISQUALIFY:** The City reserves the right to disqualify any Offeror who fails to provide information or data requested or who provides materially inaccurate or misleading information or data. The City further reserves the right to disqualify any Offeror on the basis of any real or apparent conflict of interest that is disclosed by the Offeror submitted or any other data or information available to the City. This disqualification is at the sole discretion of the City. By submission of a solicitation response, the Offeror waives any right to object now or at any future time, before any agency or body including, but not limited to, the City Council of the City or any court as to the exercise by the City of such right to disqualify or as to any disqualification by reason of real or apparent conflict of interest determined by the City. The City reserves the right to replace the disqualified Offeror.
- 20. CONTRACT AWARD:** The City reserves the right to award a contract by individual line items, by group, all or none, or any other combination most advantageous to the City. The City reserves the right to multiple award.
- 21. EVALUATION OF COMPETITIVE SEALED OFFERS:** The City will use its discretion in applying the following processes to this solicitation. Any ties in scoring will be resolved with a best and final price request and the lowest price will prevail.
- 22. DETERMINING RESPONSIVENESS AND RESPONSIBILITY:**
- 22.1.** Offers will be reviewed for documentation of minimum qualifications, completeness, and compliance with the Solicitation requirements. The City reserves sole discretion to determine responsiveness and responsibility.
 - 22.2.** Responsiveness: Nonresponsive Offers will not be considered in the evaluation process. The solicitation states criteria that determine responsiveness, and the solicitation includes terms and conditions that if included or excluded from Offers (as the case may be) will render an Offer nonresponsive.
 - 22.3.** Exceptions, conditions, reservations, or understandings are presumed to be unacceptable, and an Offer that includes unacceptable exceptions, conditions, reservations, or understandings may be rejected as nonresponsive. Alternatively, the City in its sole discretion may

SECTION I - INSTRUCTIONS

instruct in writing that any Offeror remove the conditions, exceptions, reservations or understandings. If the Offeror fails to do so in writing, the City may determine the Offer to be nonresponsive.

- 22.4. Responsibility:** To obtain true economy, the City must conduct solicitations to minimize the possibility of a subsequent default by the contractor, late deliveries, or other unsatisfactory performance that may result in additional administrative costs. It is important that the Offeror be a responsible contractor. Responsibility includes the Offeror's integrity, skill, capacity, experience, and facilities for conducting the work to be performed.
- 22.5.** The Procurement Officer, in consultation with legal counsel, will review each Offer to determine if the Offeror is responsible. The City's determination as to whether an Offeror is responsible will be based on the information furnished by the Offeror, interviews (if any), any information at the City's request, information in any best and final offer, and information received from Offeror's references, including information about Offeror's past history, terminations for convenience or cause, contract breach lawsuits or notices of claim and any other sources the City deems appropriate. Award of the Contract resulting from the Solicitation will not be made until any necessary investigation, which each Offeror agrees to permit by submitting its Offer, is made by the City as it deems necessary. A review of responsibility may occur up to contract award.
- 22.6.** The Offeror's unreasonable failure to promptly supply information in connection with an inquiry with respect to responsibility may be grounds for a determination of non-responsibility with respect to such Offeror.
- 23.DETAILED EVALUATION OF OFFERS AND DETERMINATION OF COMPETITIVE RANGE:** During deliberations, the Evaluation Panel will reach a consensus score for each evaluation criterion except price. The Procurement Officer will score the price, which will be added to the overall consensus score. The overall consensus scores will determine the Offerors' rankings and which Offers are within the Competitive Range, when appropriate.
- 24.OFFERS NOT WITHIN THE COMPETITIVE RANGE:** The City may notify Offerors of Offers that the City determined are not in the Competitive Range.

SECTION I - INSTRUCTIONS

25. DISCUSSIONS WITH OFFERORS IN THE COMPETITIVE RANGE:

- 25.1.** The City will notify each Offeror whose Offer is in the Competitive Range or made the 'short list' and provide in writing any questions or requests for clarification to the Offeror. Each Offeror so notified may be interviewed by the City and asked to discuss answers to written or oral questions or provide clarifications to any facet of its Offer. The Offerors in the competitive range may be required to provide a demonstration of their product.
- 25.2.** Demonstrations - Offerors in the competitive range may be invited to construct a hands-on sample or presentation of their solution at the City of Phoenix. In addition, each finalist may prepare and deliver a presentation of their proposed solution based on the script developed by the evaluation panel. The City may also require a hands-on lab demonstration designed specifically for the evaluation panel. The results of the surveys will be tabulated and delivered to the evaluation team for the final review and solution selection session(s).
- 25.3.** If an Offer in the Competitive Range contains conditions, exceptions, reservations or understandings to or about any Contract or Solicitation requirement, the City may discuss or negotiate the conditions, exceptions, reservations or understandings during these meetings. But the City in its sole discretion may reject any and all conditions, exceptions, reservations and understandings, and the City may instruct any Offeror to remove the conditions, exceptions, reservations or understandings. If the Offeror fails to do so, the City may determine the Offer is nonresponsive, and the City may revoke its determination that the Offer is in the Competitive Range.
- 25.4.** To the fullest extent permitted by law, the City will not provide any information, financial or otherwise, to any Offeror about other Offers received in response to this solicitation. During discussions with Offerors in the Competitive Range, the City will not give Offerors specific prices or specific financial requirements that Offerors must meet to qualify for further consideration. The City may state that proposed prices are too high with respect to the marketplace or otherwise unacceptable. Offerors will not be told of their relative rankings before Contract award.

SECTION I - INSTRUCTIONS

26. BEST AND FINAL OFFERS (BAFO):

- 26.1.** A BAFO is an option available for negotiations. Each Offeror in the Competitive Range, which is determined in the City's sole discretion, may be afforded the opportunity to amend its Offer and make one BAFO.
- 26.2.** If an Offeror's BAFO modifies its initial Offer, the modifications must be identified in the BAFO. The City will evaluate BAFOs based on the same requirements and criteria applicable to initial Offers. The City will adjust appropriately the initial scores for criteria that have been affected by Offer modifications made by a BAFO. Based on the criteria defined in the solicitation as weighted, the City will then perform final scoring and prepare final rankings.
- 26.3.** The Evaluation Panel will recommend the Offer that is the best value and most advantageous to the City based on the evaluation criteria.
- 26.4.** The City reserves the right to make an award to an Offeror whose Offer is the highest rated, best value, and most advantageous to the City based on the evaluation criteria, without conducting written or oral discussions with any Offeror, without negotiations, and without soliciting BAFOs.

Clarifications

Section II – Standard Terms and Conditions

6.2. Acceptance

Clarification: Please note that EBSCO is not a representative of the publisher and does not receive, stock or mail the issues. Consequently, EBSCO cannot warrant the goods provided, nor can it assume the subscriber's financial risk in the event of publisher failure or other non-agent responsibilities. However, it is our job to work diligently for the subscriber to secure delivery and replacements for missing issues.

If you are missing an issue of a publication or a publication is damaged beyond use, you can take advantage of the *EBSCO Missing Copy Bank*, a free service for EBSCO customers. The *Missing Copy Bank* is a one-year back file of 48,000 issues from approximately 2,000 serials titles, with more than 150,000 issues distributed to customers annually. You can search for needed issues via *EBSCONET* and order them online or call your Customer Service Representative to order missing issues by phone.

6.5. Contract Performance

Clarification: Subscription vendors are unique in that we manage the purchase transaction but do not take possession of the materials. Serials are typically delivered without issue. While we cannot guarantee or take financial responsibility for publisher errors, we do take responsibility for making all possible efforts to ensure that any missed content is fulfilled in a timely manner.

Section III – Special Terms and Conditions

7. Cooperative Agreement

Clarification: EBSCO will extend the terms of the agreement to other agencies; however, we reserve the right to price other agencies individually to ensure the most advantageous pricing for each individual organization.

Approach to Scope of Work

- Describe your company's periodicals inventory in detail.

EBSCO Information Services offers more than 360,000 subscription titles from over 95,000 publishers around the world, including both popular and scholarly content in English and in many other languages. We also provide premium content, including more than 375 databases, accessible through a single interface, EBSCOhost, and digital replicas of magazines via *Flipster*.

EBSCO offers the entire subscription catalog from most publishers with whom we work, covering all available formats, with few if any exceptions. Because EBSCO works with a vast number of diverse publishers, subscriptions offered cover most any subject for which a published work is available. If an institution wishes to subscribe to a title that is not currently included in our title database, staff in our title information group will research and add that title to the database so that it is available for purchase.

- Provide a detailed description specifying all of the functionality and tools provided by your electronic solution.

EBSCONET Subscription Management, our online subscription and e-resource management platform, is available to you 24 hours a day, 7 days a week. It is the premier serials management system used by libraries worldwide and is a value-added service at no charge to you.

With **EBSCONET**, you can search the entire EBSCO catalog as well as your current and past orders. **EBSCONET** lets you:

- Search our title database and view title details for more than 360,000 titles from 95,000 publishers worldwide
- Place orders
- View real-time information about your orders
- Manage renewals (including e-packages)
- View detailed information about publishers' online access policies and license terms
- Generate reports
- Place and follow up on claims
- Download copies of invoices and monthly account statements
- Access the **EBSCO Missing Copy Bank**
- Cancel titles

EBSCONET is specifically designed to help you manage each stage of the subscription life cycle and empowers you to make informed, timely decisions about the resources you have on order.

You can also use **EBSCONET** to determine whether alternative formats are available or if a title is

available in a publisher package. The publisher's terms and conditions are clearly displayed so you can view their policies on orders, cancellations and claims. You can also review publisher access information and license details, and check pricing models.

- Describe how your company processes claims issues.

EBSCO provides claiming for both print and electronic resources. Claims can be made through *EBSCONET*, to your Customer Service Representative by e-mail, phone or fax, or via FTP or EDI through your ILS; whichever best suits your needs.

Claims Using *EBSCONET* Subscription Management

Claims can be submitted, and claim status can be reviewed, via the claiming functionality in *EBSCONET*.

A claim can be created by selecting the title and reason for the claim under the New Claim option on the Orders menu. Claim restriction data is provided at the title level and in the *Titles with Claiming Restrictions Report*. Publisher dispatch data is provided to assist with timing of claims.

The *EBSCONET Claim Checker* allows the Library to view existing claims and act on them, including acknowledging receipt or reclaiming. The *Claims Processed Report*, available via *EBSCONET*, offers a comprehensive report of all claims.

Claims for missing electronic access should be made via email or phone to your Customer Service Representative as soon as missing access is noted. Claims for electronic access will be handled via direct contact with the publisher. If a claim is urgent, please contact your Customer Service Representative directly so that the claim can be handled as soon as possible.

For print claims, we suggest allowing two (2) weeks for domestic publishers and four (4) weeks for international publishers before reclaiming to ensure that the publisher has ample time to respond.

For 2019 subscriptions, EBSCO is introducing a portal within *EBSCONET* where customers will be able to report and track both print claims and online access issues. Access issues reported via the portal will be immediately directed to your Customer Service Representative for handling. The chain of communication for all issues will be available for review within *EBSCONET* at any time.

- Provide detail as to the ways that Library staff can contact your company regarding customer service concerns.

Melissa Brewer is the Customer Service Representative assigned to personally handle any questions you have concerning orders, delivery, claims, renewals, e-journal access and troubleshooting. She is also available to assist with management reports, invoices, credits and any other requests related to your subscription account. EBSCO's Customer Service Representatives are empowered to call publishers on your behalf to resolve claims and other issues. In addition, they are experts in e-resources and receive training specifically on managing e-journals and e-packages.

Melissa also has access to invoice and order history records and can quickly locate information about your subscriptions. Melissa works in EBSCO's Regional Office in Birmingham, Alabama, and can be reached via a direct toll-free number (877-701-1205) or by e-mail at mbrewer@ebSCO.com.

All of EBSCO's Customer Service Representatives work in dedicated teams, sharing common issues and proposing solutions. Their team structure encourages collaboration and ensures the best service for your account. In addition, this structure enables us to provide a back-up Customer Service Representative who is familiar with your account and can assist when your primary Customer Service Representative is out of the office, ensuring consistently prompt response to communications.

Our Customer Service Portal, which will be added to *EBSCONET* in Fall 2018, will provide another mechanism for communicating with your representative, allowing you to enter cases for various issue types and track them through to resolution, as well as view a history of outstanding and resolved issues.

- Describe how your company handles the periodicals renewal process.

The renewal process has three basic stages.

- Stage 1: EBSCO collates your renewal list according to your specifications and provides it to you either online via *EBSCONET*, electronically in Excel or PDF format. Your renewal list can be collated:
 - By site or delivery address
 - By account
 - By ILS number
 - By fund/HEGIS CODE
- Stage 2: You make your renewal decisions with all necessary changes and authorizations.
- Stage 3: Your renewals will be processed and orders and payments will be sent to publishers.

Subscriptions are renewed on a timely basis so that your electronic content access and print delivery do not lapse. If your access to an e-journal lapses during the subscription period, EBSCO makes re-establishing your access a top priority.

EBSCO works within a timetable for renewals that assures you have time to make buying decisions and also enables us to send orders and payments to publishers in a timely manner. For your main calendar year (January start date) renewal list, our process is:

- By June 30, or a date agreed upon with you, we send you a consolidated renewal list for your subscriptions.
- By mid-September we ask you return the list to us with authorization.

Whenever possible, common expiration dates will be established for all subscriptions.

For libraries choosing to manage the renewal process online, the renewal will be available on *EBSCONET*; an email will prompt you when renewals are ready for your review.

Your online renewal list includes the following information:

- Bill-to address
- Ship-to address(es)
- EBSCO Account Number(s)
- ISSN / eISSN
- Title Name (in alphabetical order)
- EBSCO Order Number
- EBSCO Title Number
- Publisher
- Frequency
- Format
- Title Status
- Start Date
- Order Term
- Quantity
- Fund Code
- ILS Number
- Publisher's current price
- Total price and number of titles

EBSCO's new online renewals interface features a more streamlined user experience including a simplified grid format, the ability to make format, quantity and other changes in-line without having to navigate to another page, and a new "shopping cart" checkout experience. All titles that can be renewed will be in your cart when you access your renewal. Titles can easily be added to the cart, removed (cancelled) from your cart, or placed on hold.

Any previously ordered titles that are no longer available for ordering, such as direct order or ceased titles, will be clearly marked and will be automatically removed from your renewals shopping cart, but will remain visible under a separate tab specifically for items that have been removed from the cart. The removed items tab will also show any titles that you have opted to cancel, as well as ones that you have placed on hold.

The renewals interface includes renewal information for all ship-to addresses, however, it can be filtered by location (subscriber), start date, format and fund code, allowing for filtering for two of these parameters at the same time. The renewal can also be exported to a Microsoft Excel file for further data manipulation. Additionally, the new interface can be configured to allow users to view and modify titles for a specific branch or location, if desired.

- Describe remote user, database and direct linking functionalities that your company can provide (see Section V, Scope of Work, Item 4.9).

EBSCO supports a wide variety of authentication methods to accommodate remote access needs, directing users to the database(s) to which the institution subscribes.

EBSCOhost displays full-text articles in PDF and HTML formats. PDF is the primary full-text format for academic journals (including STM and soft sciences). With these publications, EBSCO tries as often as possible to provide a native (searchable) PDF. When native PDFs are not available, but images are included in the journal, EBSCO scans the issues in color. For text-only journals, which are not available in native PDF, EBSCO scans the issues in black and white. PDF has been selected as the primary format for these publications because this format is needed to properly display scientific formulas and equations, diagrams, charts and graphs, clinical images, photos of art, etc. The vast majority of PDFs in **EBSCOhost** databases are currently being loaded as native PDF.

Additionally, **EBSCO SmartLinks** can be activated. These provide linking among databases in **EBSCOhost** by seamlessly allowing a user to follow an article citation in one database where the full text is not available, to the full text of the article in another database where it is available. **SmartLinks+** is also available for all customers who purchase subscriptions through EBSCO; with **SmartLinks+**, users can link directly from citations in **EBSCOhost** databases to the full text of articles at the publisher's site.

EBSCO SmartLinks can be activated in **EBSCOadmin** for all customers who wish to link to their EBSCO e-journals or **EBSCOhost** databases.

As the only stand-alone link resolver and knowledge base currently available, **EBSCO's Full Text Finder** features a user-friendly interface that increases the visibility of all the titles in a library's collection, whether they are included in publisher packages, aggregated packages, or individually-subscribed e-resources. It can be tailored to a library's needs, including options for communicating up-to-the-minute information to users and customizing search screens. **Full Text Finder** allows libraries to leverage EBSCO's knowledge base, saving libraries valuable time by auto-populating titles and coverage for purchases made through EBSCO.

The **Full Text Finder's** Publication Finder interface allows users to search or browse all publications made available to through the institution, regardless of the vendor or provider.

EBSCOhost databases offer coverage back to volume 1 issue 1 for many titles; the number of years of subscription content that can be linked to using **Full Text Finder** depends on the publisher's access model. This information is reflected in **EBSCONET's** access and registration data. Most large publishers offer access to at least 15 years' worth of content with a current subscription.

Journal alerts are also available on **EBSCOhost**. These alerts save valuable research time and can be set up to provide automatic e-mail notification whenever a new issue of a particular journal becomes available in the EBSCO interface you are using. You can sign up for alerts by logging into to **My EBSCOhost** and creating a search alert.

- Describe any additional value-add services that your company can offer.

EBSCO SmartLinks+

EBSCO SmartLinks+ is an EBSCO solution that gives end users fast, easy access to the full text they want. Supported by a vast knowledge base of more than 34 million article links to a wide range of journals, this powerful tool allows linking from citations in **EBSCOhost Research Databases** to the

full text in a library's collection. Enabled for e-content purchased through EBSCO, it tracks the availability, ownership and location of full text, providing pre-validated links that appear for articles in the e-packages and e-journals to which a library subscribes.

Dedicated Customer Service

Each account has a personal Customer Service Representative who answers any questions you have concerning orders, delivery, claims, renewals, e-journal access and troubleshooting. Our Customer Service Representatives are knowledgeable about all aspects of electronic resources and are easy to reach via a direct, toll-free phone number or e-mail.

Account Services Manager

The Account Services Manager is a position unique to EBSCO. Your Account Services Manager serves in a consultative role to assist you with training and advise you of best practices that will tailor EBSCO's products and services to your organization's specific needs.

Customizable Reports

EBSCO offers a broad suite of financial, collection development and serials management reports, which allows you to evaluate your collection and make budgeting decisions. Many of these reports are available to download via *EBSCONET* and more than 250 special reports are available at no charge upon request.

Please see Appendix A for sample reports.

Training and Technical Support

Your staff and users benefit from accessible, knowledgeable training and technical support at no charge to you.

EBSCO's training site, <http://training.ebsco.com>, provides access to live web-based training sessions conducted by our Customer Success group; recorded sessions are available to view on demand.

Our support site, <http://support.ebsco.com>, offers links to tutorials and support centers, answers to FAQs, email support and many more tools to help you with any issues you may experience. Our technical support team will track and update you on any issues reported via this site or our technical support email address.

EBSCONET Analytics

EBSCONET Analytics is an analysis tool that puts key decision-making data directly into the application where you manage your subscriptions, free of charge. If you order your e-journals and e-packages through EBSCO, you have instant access in *EBSCONET Subscription Management* to data you need to quickly evaluate your collection. Interactive and easy-to-read dashboards bring your data to life, giving you at-a-glance assessments of a title or package – or your entire subscription collection. Color-coded indicators highlight year-to-year trends, and analysis reports allow you to view the cost, use and title-count of your EBSCO subscriptions by format, fund code, subject and more.

EBSCONET Analytics takes the integration of *Usage Consolidation* and EBSCONET to the next level. When usage data is added to the mix, **EBSCONET Analytics** provides an additional level of clarity for your purchase and renewal decisions. Usage data is combined with key information captured within EBSCO's order history to provide the library with dashboards, on-the-spot analysis and the critical metric of cost per use for e-journals and packages acquired through EBSCO. Decision support data is provided directly within the library workflow.

Offeror's Qualifications and Expertise

- Offeror's background data, including years in business and experience providing subscription services to large public libraries

EBSCO Industries Inc., the parent company of EBSCO Information Services, is a family-owned company that was founded in 1944 by Elton B. Stephens - which is where the company name is derived (Elton B. Stephens Company). The business began with Mr. Stephens selling magazines door to door to finance his college education. Today, EBSCO is the world's largest subscription agent. With continued growth each year, and a 74-year history, EBSCO consistently ranks in Forbes' annual list of the top 200 largest privately-held corporations in America and maintains a Dun & Bradstreet financial strength rating of 5A1, the highest award.

As a family company EBSCO is fortunate to have had consistent leadership for many years. Elton B. Stephens, EBSCO's founder, led the company until 1971, when he was succeeded by his son, J.T. Stephens; he passed the torch to brother-in-law Dixon Brooke in 2005. David Walker, a 17-year EBSCO veteran and former CFO & COO, was named CEO of EBSCO Industries in 2017. Tim Collins, a 31-year veteran of EBSCO, serves as president of EBSCO Information Services. Allen Powell, who has been with EBSCO for more than two decades, is the Executive Vice President of Operations and Finance for the Subscription Services Division.

In 2013, EBSCO's subscription services division and database division, previously operating as separate entities, combined under the EBSCO Information Services umbrella. The companies worked closely together for the prior three decades and decided it would be beneficial for librarians and end users to join resources. By combining the businesses, the company emphasized the importance of tight integration of products and services in order to heighten the overall value and benefit for customers. EBSCO continues to grow through increased market share and is constantly expanding the suite of products and services. Headquartered in Birmingham, Alabama, EBSCO now employs more than 5,700 people worldwide and has more than 40 operating divisions in 23 countries, with the Information Services division representing the majority of its business activities.

EBSCO provides subscriptions to nearly 3,500 public libraries in the United States and Canada. As a subscription agent, EBSCO places orders and makes payments to publishers on your behalf in advance of invoicing you. We provide invoices for all subscriptions ordered; invoices are available in multiple formats in order to meet the needs of your institution. EBSCO supports a variety of claiming methods for lost, damaged or missing issues and will handle replacement requests accordingly. We supply credits and refunds as allowed by the publisher. We are also able to accommodate special invoicing requirements and will prorate the subscription terms to reach a common expiration date when allowed by the publishers.

EBSCO provides a personal Customer Service Representative to personally handle any questions you have concerning orders, delivery, claims, renewals, e-journal access, and troubleshooting. Your Customer Service Representative also has access to invoice and order history records and can

quickly locate information about your subscriptions. They are available to provide assistance with management reports, invoices, credits and any other aspects pertaining to your account. EBSCO's Customer Service Representatives are empowered to call publishers on your behalf to resolve claiming and other issues. In addition, they are experts in e-resources and receive training specifically on managing those resources.

- Provide a detailed description of all relevant staff, including their experience and qualifications and what role, if any, they would directly play in delivering services to Phoenix Public Library.

Your library will benefit from a team of experienced and knowledgeable personnel to work with your staff. You will have a dedicated Customer Service Representative, Regional Sales Manager, Account Services Manager and Vice President of Sales to give you the personal service that you can expect as an EBSCO customer.

- Describe your company's approach to invoicing.

EBSCO invoices are available in both print and electronic format; PDF or Excel formats of current and prior invoices are instantly available via *EBSCONET*.

In accordance with our efforts to be more environmentally conscious, and because our invoice is designed to be a payment document, we have reduced the number of fields on our standard invoice. A more comprehensive invoice is available via *EBSCONET*.

Your invoice includes the following information:

- Bill-to Address
- Ship-to Address
- EBSCO Account Number
- ISSN/eISSN
- Title Name
- EBSCO Title Number
- Frequency
- Format
- Purchase Order Number
- Term
- Start Date
- Volume/Coverage Information
- Quantity (if more than one)
- Fund Code
- ILS Number
- Price

Service charges or discounts are listed on the item level or at the end of each invoice.

The standard monthly account summary statement shows any open items and is available electronically as a PDF or Excel file. You can view invoices and current and previous monthly statements (which reflect payments and credits) via the Financial Information link under the Orders menus on *EBSCONET*. *EBSCONET* will also show whether a given invoice has been paid in full.

- Please provide the price that your company would provide for each and all subscriptions listed in Exhibit A, as well as the total amount for all subscriptions listed in Exhibit A (please utilize the attached Excel spreadsheet titled Exhibit A and submit Exhibit A in Excel format)

EBSCO is offering to provide subscriptions to the Library at a 7.5% discount off publishers' retail rates on every title ordered from EBSCO. We intend to hold the discount firm for the duration of the 5-year contract period; however, we reserve the right to revisit the pricing for your account and initiate discussions with you if the spend changes dramatically or EBSCO's agreed-upon publisher terms and arrangements are significantly altered during the contract period.

With the discount taken into consideration, the proposed total for the subscriptions listed comes to \$44,964.20 excluding bill later and standing order titles.

Please see Exhibit A (attached) for complete pricing for the subscriptions listed.

Please note that EBSCO's standard payment terms are net due upon receipt of invoice. A finance charge of 1 percent per 30 days will be charged beginning on the 60th day for unpaid balances.

- Provide any discounts your company can offer the Phoenix Public Library.

Flipster

Flipster provides libraries with digital magazine subscriptions on an annual, title-level basis. The overall *Flipster* collection includes current and back issues for more than 1,300 titles, including 1,200+ magazines, 100+ scholarly/trade titles, and 530+ not found in other digital magazine platforms. Within this collection are represented several best-selling publishers, including Conde Nast, Time, Forbes, Meredith and Cricket Media, with new titles added weekly. Usage models are predetermined by the publisher, and can include the following limits: 50, 100, 500 or unlimited simultaneous users (with more than 85% offered on an unlimited basis). Through *Flipster*, users can easily check out, download and access these magazines anytime, anywhere - both online and off - through EBSCO's dedicated interface and proprietary mobile app for iOS, Android and Kindle Fire.

Because EBSCO is currently your primary subscription agent, your libraries are receiving a 25% discount on *Flipster* digital magazine titles (currently valued at \$17,000+ based on your 2018 *Flipster* order).

- Provide pricing for any additional offerings.

EBSCO is offering to provide *Full Text Finder* and *EBSCO Discovery Service* together for up to a 30% discount.

Full Text Finder

EBSCO offers the industry's most complete web-based tool for organizing and providing links to all of a library's e-resources, including e-journals, titles in full-text databases and e-journal packages, and e-books: *Full Text Finder*.

As the only stand-alone link resolver and knowledge base currently available, EBSCO's *Full Text Finder* features a user-friendly interface that increases the visibility of all the titles in a library's collection, whether they are included in publisher packages, aggregated packages, or individually-subscribed e-resources. It can be tailored to a library's needs, including options for communicating up-to-the-minute information to users and customizing search screens. *Full Text Finder* allows libraries to leverage EBSCO's knowledge base, saving libraries valuable time by auto-populating titles and coverage for purchases made through EBSCO.

EBSCO Discovery Service

EBSCO Discovery Service (EDS) provides a simple, powerful means of searching across an institution's collection of information resources, supporting an integrated search of content from full-text databases, citation databases, and local content collections such as library catalogs and other locally-managed digital collections. The integrated search experience is achieved by compiling and indexing metadata from a variety of content sources into a unified pre-indexed search platform that offers highly relevant and exceptionally fast end-user search response. EDS utilizes a model that ensures content from diverse sources can be searched in a common way.

5-Year Price History

The 5-Year Price History Report provides an overview of the actual prices paid by the library (exclusive of service charge/discount and tax) for each title on subscription, as well the variance in the price from year to year. The format purchased for each year is also listed. This report allows libraries to evaluate price increases at a title and/or publisher level, and to identify titles that have experienced significant price increases during the subscription term.
