Responses should highlight experience, demonstrate a strong national presence, describe how Offeror will educate its national sales force about the Contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to OMNIA Partners.**

Please see Appendix D, Exhibit A under Tab 7

Offerors should have any reviews required to sign the document prior to submitting a response. Offerors response should include any proposed exceptions to OMNIA Partners Administration Agreement on Appendix B, Terms and Conditions Acceptance Form.**

WESCO understands that Exhibit B must be signed prior to contract award.

- c. **Include completed Appendix D, Exhibits F. Federal Funds Certifications and G. New Jersey Business Compliance.**

Please see Appendix D, Exhibits F and G under Tab 7

- d. **Describe how Offeror responds to emergency orders.**

WESCO is partnered with more than 24,000 suppliers and as it is impossible to stock material from every supplier, the relationships that WESCO has enables us to expedite material to satisfy the customers' needs. For non-stock material, WESCO will provide an estimated time of arrival at the time of the order of the material and update the customer as to the progress of the shipment. Emergency service is available 24 hours a day, 7 days a week from any of our branches or distribution centers. In our experience, customer emergencies are infrequent once an accurate and reliable supply process is established. Proper planning and preparation are essential if they are to be handled quickly and effectively. As we do for all of our key customers, we intend to customize an emergency service process to suit the specific needs and requirements of the Participating Agencies. Our typical plan includes:

- A hierarchical list of key contacts including names, addresses, and telephone numbers. These individuals have the knowledge, ability, and authority to open the local branch, withdraw stock, and ship or deliver items via expedient means.
- A single "800" number, answered by an employee of WESCO or by an answering service, who would take a description of the problem, note return phone numbers, and refer to the appropriate branch employee.

- e. **Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.**

WESCO has in place a process called Positive Action Request (PAR). This is generated by a sales manager after receiving a customer complaint to research, identify, and resolve the complaint. The customer is contacted to determine a satisfactory solution and then the PAR is recorded to see if a trend is in place to help prevent any further complaints.

Standard operating hours are 7AM-5PM for any service requested by a member.

f. **Describe Offeror's invoicing process.**

WESCO is asked to perform a wide range of invoice options. The most frequently requested forms are conventional (paper invoice), ERS, electronic and summary invoicing. WESCO can implement programs like summary billing, which reduces the number of invoices.

All WESCO branches and DCs are connected by a common proprietary computer system called WESNET. Invoices are transmitted electronically or via email or mail. After reviewing, sorting, editing and matching, invoices that are not on auto pay are entered in WESNET for payment by the Centralized Payable Group or by the branch or forwarded to Accounts Payable. Billing discrepancies (if applicable) are handled by the Centralized Group or by the branch or through Accounts Payable. Supplier statements are reviewed for further action or discarded. Payment records are filed and retained.

g. Describe Offeror's contract implementation/customer transition plan. As an example, attach a high-level project schedule, with milestones from each implementation phase. Include training that customer will receive as part of the transition.

As WESCO currently enjoys having an OMNIA Partners contract, many implementation plans are in place. WESCO has a corporate marketing team of 50+ professionals including a dedicated resources for State and Local Government contracts. After the agreement is signed, WESCO will take the following steps to promote our services to the participating agencies:

1. Update the co-branded *custom* line card for the OMNIA Partners membership.
2. Update the custom landing page for members (housed on WESCO's homepage and within the contract's platform).
3. Send contract announcement e-blast to participating members identified by the contract. A post card announcement may be used in the event that e-mail addresses are not readily available.
4. Identify largest opportunity amongst the participating member and send contract announcement kit which includes:
 - a. Customized letter
 - b. WESCO Electrical Buyer's Guide
 - c. Custom Line Card
5. Host a minimum of three introductory webinars for the contract membership.

As WESCO does participate in various conference and trade shows throughout the year and thoroughly understands the benefits and opportunities, WESCO will evaluate opportunities for advertising, event support, and customized collateral on a case by case basis. With any contract, WESCO also has created a customized line card specific to the contract and does create marketing campaigns to market the contract to current and potential customers.

Work with OMNIA Partners to jointly identify key opportunities within OMNIA Partners participating agencies and send Customer Relationship Handbooks (CRH). The CRH includes the following key information:

- Customized letter from WESCO
- Customized letter from OMNIA
- Agreement Summary
- WESCO's Implementation Team
- Supplier & Product Offering
- WESCO Locations

Upon contract award, WESCO will do an in-depth analysis of current OMNIA members and current WESCO public agency customers. WESCO will identify opportunities to promote the MPA to agencies who (1) are not currently WESCO customers but OMNIA members and (2) are WESCO customers but do not have any purchasing agreements in place with WESCO. With support from WESCO's Regional Vice Presidents, the identified accounts will be put into a pipeline of accounts to transition to OMNIA.

h. Describe the financial condition of Offeror.

A majority of Fortune 500 companies utilize WESCO for their MRO and OEM electrical, data communications, and security needs. We have the financial strength to operate effectively even under the most challenging economic conditions.

WESCO's 2018 financial results reflect record sales with growth in all end markets and geographies, operating margin expansion, strong cash flow generation, and effective capital deployment. Sales increased \$497.6 million, or 6.5%, over the prior year. Foreign exchange rates positively impacted net sales by 0.3%, resulting in organic sales growth of 6.2%. Cost of goods sold as a percentage of net sales was 80.8% and 80.7% in 2018 and 2017, respectively. Operating income was \$352.4 million for 2018, compared to \$319.0 million for 2017. Operating income increased primarily due to higher sales volume and operating leverage. Net income attributable to WESCO International of \$227.3 million increased by 39.1% compared to 2017 net income of \$163.5 million, which included \$26.4 million of discrete income tax expense resulting from the application of the TCJA. Earnings per diluted share attributable to WESCO International was \$4.82 in 2018, based on 47.2 million diluted shares, compared with earnings per diluted share of \$3.38 in 2017, based on 48.4 million diluted shares. Excluding the impact of the TCJA of \$0.55, adjusted earnings per diluted share for 2017 was \$3.93.

i. Contractors that have retail stores shall have appropriate procedures in place to ensure contract pricing on all product lines to member agencies. Describe how agencies choosing to pick up orders will receive the correct contract pricing. Indicate how volume will be tracked and reported to OMNIA Partners.

As WESCO does not have locations that would be classified as "retail stores", WESCO does have more than 150 full-service sales and warehouse locations that are assigned to service this contract. These locations do provide a typical "will-call" counter for material pick-up. WESCO's business allows its customers to access more than 1,000,000 products. WESCO's network of branches and distribution centers stock more than 130,000 unique product stock keeping units ("SKUs") from over 24,000 suppliers. Each branch will tailor its inventory to meet the needs of the Participating Public Agencies in its local market, stocking an average of approximately 2,500 SKUs. WESCO has an internal process to create "National Account" codes that are then assigned to participating members of a specific contract. These codes are created in order to lock contractual pricing company wide, which ensures no sales vary from the contractual values. In addition, these National Account codes enable WESCO to pull selected criteria from the WESNET database to provide Participating Public Agencies with detailed reporting.

j. Payment terms/options. Include standard payment terms, early payment discounts and forms of payment accepted. Also state the Convenience Fee, if allowable, per the Visa Operating Regulations.

WESCO's standard payment terms are Net 30. When awarded supply agreement, as part of terms and conditions, we would be willing to reevaluate payment terms until they are mutually acceptable with an individual member.

Tab 4 – Qualification and Experience

a. Provide a brief history of the Offeror, including year it was established and corporate office location.

WESCO International, Inc. (NYSE: WCC), a publicly traded Fortune 500 holding company headquartered in Pittsburgh, Pennsylvania, is a leading provider of electrical, industrial, and communications maintenance, repair and operating ("MRO") and original equipment manufacturers ("OEM") product, construction materials, and advanced supply chain management and logistic services. 2018 annual sales were approximately \$8.2 billion. The Company employs approximately 9,200 people, maintains relationships with over 30,000 suppliers, and serves over 70,000 active customers worldwide. Customers include commercial and industrial businesses, contractors, government agencies, institutions, telecom providers and utilities. WESCO operates nine fully automated distribution centers and approximately 475 full-service branches in North America and international markets, providing a local presence for customers and a global network to serve multi-location businesses and multi-national corporations.

WESCO is a full service supply chain company, focused on providing customers with the leading products, services, and solutions they need to meet their day to day and long term project requirements for communication, maintenance, repair, and operations, and capital project requirements. The breadth and depth of our capabilities, geographic footprint, and supply base enable us to meet our customers' needs and provide continuity to their operations.

b. Describe Offeror's reputation in the marketplace.

The market is highly fragmented with thousands of manufacturers and over 10,000 distributors. The top 50 distributors have less than 20% share in North America and a majority of our products get to market through distribution channels.

WESCO is recognized one of the Top 2 Electrical Distributors in North America and averages \$8 Billion in annual sales.

We compete directly with global, national, regional and local distributors of electrical and other industrial supplies. Competition is primarily focused on the local service area, and is generally based on product line breadth, product availability, service capabilities and price. We also compete with buying groups formed by smaller distributors to increase purchasing power and provide some cooperative marketing capability.

c. Describe Offeror's reputation of products and services in the marketplace

- **Data Center Assessment**

Data Center assessments offer an overall health checkup of critical power and cooling systems, catalog existing infrastructure, and identify operational efficiency issues. Recommendations are provided to optimize the existing Data Center based on industry best practices, taking into account future growth projections.

- **Network Closet Assessment**

Constant moves, additions, and changes occur and often there may not be the proper equipment in place to streamline configurations to ensure maximum availability. The assessment team examines environmental and critical infrastructure conditions and provides recommendations to increase overall closet effectiveness.

- **New Construction Lighting Review**

When designing a new building, it's important to understand the specific lighting requirements for all spaces. WESCO and our supplier partners can help customers design an optimal new construction lighting system to save energy, reduce maintenance, inventory, procurement costs, improve productivity and meet environmental standards. WESCO also provides LEED and green strategy expertise to new construction projects.

- **Power Distribution Services**

When clients need scalable, customized solutions for power distribution, this set of services can meet their requirements. WESCO experts design and integrate electrical distribution equipment, low voltage and data assemblies, energy management and lighting control systems into a single Integrated Facility Systems (IFS) assembly. This expertise can extend into retrofit applications when new equipment is preferred or required.

- **Power Quality**

Process and administrative computer requirements today demand high quality power with few, if any interruptions in service. With increased costs for electrical service a complete system power factor and power quality audit is a wise solution. WESCO can provide enhanced power quality solutions through Eaton Engineering Services, Eaton Electrical, and Powerware. As partners, WESCO and Eaton meet with the customer to discuss how this solution for power quality can improve system efficiency, lower repair and operation costs, and improve equipment life. After meeting to determine all elements and scope of work, a complete power factor and quality audit is performed. This includes work on the electrical system and equipment to enhance system quality and efficiency. We will not only provide a report of

recommendations, but also provide the equipment and service to implement recommended improvements.

- **Process Streamlining**

Applying LEAN concepts such as value stream mapping, cost/time studies, process value assessments, space utilization and error-proofing to existing processes helps customers identify opportunities and potential solutions for quality and productivity improvements. A customized supply chain strategy for addressing existing barriers and waste within a process flow is delivered to customers, helping them achieve their goals and objectives. We can leverage our experience with KAIZEN's , with several of our black belt certified process experts, to conduct onsite reviews of material management, and vendor consolidation options. This can help a school or agency streamline their internal processes.

- **Product Standardization**

Using the customer's inventory data, WESCO learns more about the manufacturers currently involved throughout their supply chain to prepare a complete comparative analysis. A dozen different types/styles of an item may be reduced to two or three choices. Details of the study are submitted to the customer for review and ultimate selection of the most appropriate manufacturer to meet their specification and value requirements.

- **Turnkey Lighting Services**

An experienced team of WESCO Lighting Specialists partner with Energy Services Contractors to coordinate a detailed lighting assessment of the customer's facility. Once audit data is collected, a comprehensive retrofit lighting solution proposal is delivered. Included in the proposal is a complete lighting system analysis with energy and cash flow projections. Also available from WESCO is SLS Energy Solutions, a division of WESCO Distribution, Inc. SLS is an innovative Solution Provider of interior and exterior lighting offering energy audits, design, upgrades, integration and installations. Providing this allows members to utilize a company that has more than 50 years of experience to audit, design, and install an energy efficient lighting solution on their campus or facility.

The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided*, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. "During the performance of this contract, the contractor agrees as follows:

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

- (5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. Davis Bacon Act and Copeland Anti-Kickback Act.

- a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program.**
- b. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.
- c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

- e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.
- f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act."** However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

- (1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- (2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses
- (3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

5. Contract Work Hours and Safety Standards Act.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.
- c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.
- d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or

transmission of intelligence.

- e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

- (1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- (2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
- (3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.
- (4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section."

6. Rights to Inventions Made Under a Contract or Agreement.

- a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of "funding agreement."

b. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

c. The regulation at 37 C.F.R. § 401.2(a) currently defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of \$150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

a. The following provides a sample contract clause concerning compliance for contracts of amounts in excess of \$150,000:

"Clean Air Act

§ 7401 et seq.

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.”

8. Debarment and Suspension.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security’s regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).
- c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement*, Chapter IV, ¶ 6.d and Appendix C, ¶ 2.
- d. In general, an “excluded” party cannot receive a Federal grant award or a contract within the meaning of a “covered transaction,” to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a “covered transaction,” which is any non-procurement transaction (unless excepted) at either a “primary” or “secondary” tier. Although “covered transactions” do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS’s implementing regulations, it does include some contracts awarded by recipients and subrecipient.
- e. Specifically, a covered transaction includes the following contracts for goods or services:
 - (1) The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
 - (2) The contract requires the approval of FEMA, regardless of amount.
 - (3) The contract is for federally required audit services.
 - (4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

“Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of

the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.”

9. Byrd Anti-Lobbying Amendment.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Contractors that apply or bid for an award of \$100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.
- c. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.
- d. The following provides a Byrd Anti-Lobbying contract clause:

“Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.”

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be

submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, _____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

10. Procurement of Recovered Materials.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. A non-Federal entity that is a state agency or agency of a political subdivision of a

state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.

- c. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
- d. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

“(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA- designate items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.”

11. Additional FEMA Requirements.

- a. The Uniform Rules authorize FEMA to require additional provisions for non-Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:
- b. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

- c. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

- d. The following provides a contract clause regarding access to records:

"Access to Records. The following access to records requirements apply to this contract:

(1) The contractor agrees to provide (insert name of state agency or local or Indian tribal government), (insert name of recipient), the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

12. DHS Seal, Logo, and Flags.

- a. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).
- b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval."

13. Compliance with Federal Law, Regulations, and Executive Orders.

- a. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.
- b. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

14. No Obligation by Federal Government.

- a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- b. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

15. Program Fraud and False or Fraudulent Statements or Related Acts.

- a. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- b. The following provides a contract clause regarding Fraud and False or Fraudulent or Related Acts: "The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract."

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided in the contract.

Tab 7 – Appendix D – Exhibit A – Supplier Response 3.0

3.1 Company

A. Brief history and description of Supplier.

Since 1957, WESCO Distribution Inc. (WESCO) has engaged in programs addressing the needs of large, multi-location customers in a variety of markets – from manufacturing and process industries to utilities, retailers, home builders, contractors, healthcare and educational institutions, and the government. 2018 annual sales were approximately \$8.2 billion. The Company employs approximately 9000 people, maintains relationships with over 30,000 suppliers, and serves more than 70,000 customers worldwide. WESCO operates nine automated distribution centers that carries \$20 million in inventory that provides an Automatic Branch stock replenishment with dedicated middle-of-the-night delivery to more than 475 full-service branches in North America and selected international markets, providing a local presence for area customers and a global network to serve multi-location businesses and multi-national corporations. In each case we have offered products and services for the plant, for the job site or for the office. We are the distributor of choice for customers that are seeking innovative solutions to their electrical, lighting and MRO procurement requirements. WESCO is successful because they offer a unique combination of technical support capabilities, distinctive service capabilities, competitive pricing and ideas that generate cost savings.

WESCO is functionally organized to support the industrial, construction, utility, manufactured structures and CIG (commercial / institutional / government) market segments. Originally formed in 1922 as the Westinghouse Electric Supply Company, WESCO was chartered to sell and distribute power products and appliances manufactured by the Westinghouse Electric Corporation. Following the divestiture of many of its electrical manufacturing divisions, Westinghouse divested the WESCO business unit in February 1994 by way of a leveraged buy-out by senior management. Following a successful IPO in May 1999, WESCO now operates independently as a publicly held company traded on the NYSE.

WESCO is a full service supply chain company, focused on providing customers with the leading products, services, and solutions they need to meet their day to day and long term project requirements for communication, maintenance, repair, and operations, and capital project requirements. The breadth and depth of our capabilities, geographic footprint, and supply base enable us to meet our customers' needs and provide continuity to their operations.

We are a financially secure and stable \$8 billion company with senior management commitment to building strategic alliances with key customers. As a result, WESCO will be able to quickly and flexibly deploy the resources required to ensure the successful implementation of the OMNIA Partners initiative.

B. Total number and location of sales persons employed by Supplier.

WESCO's salesforce is supported by approximately 1,300 outside sales personnel and 1,250 inside sales personnel within WESCO's branch network of 475 locations. Most of these salespeople are assigned to Major Accounts (Commercial and Public) so all have experience in most markets.

C. Number and location of support centers (if applicable) and location of corporate office.

WESCO operates five fully automated distribution centers in the U.S. and approximately 475 full-service branches in North America and selected international markets. This allows WESCO to provide a local presence for area customers and a global network to serve multi-location businesses and multi-national companies. See the attached "WESCO U.S. Locations" for a breakdown of locations.

WESCO maintains an extensive network of full service branches and Distribution Centers (DCs) in North America. Our distribution model calls for each branch to stock the appropriate materials to service customers in its respective geographic area. On average, a branch will carry approximately \$1 million in inventory. This inventory is replenished daily from each branch's servicing DC which are strategically located to provide 1-2 days delivery. Most replenishment inventory is provided through an Automatic Replenishment System that does not require hands-on written documentation. All WESCO branches and DC's are connected by a common proprietary computer system called WESNET. Inventory is visible real-time at all locations. If the need arises, each branch has the ability to access inventory from any WESCO source, branch, DC or supplier. This enables every branch to respond to emergency situations in a timely manner.

Using the Global Accounts implementation team, we will establish a protocol to assign a special Global Sales identification number to align with all agencies using the OMNIA Partners agreement. This trigger will capture the sales through the contract, and be the foundation for the reporting requirements.

We would expect to promote the new agreement to customers at important industry events, like the annual NAEP conference in Nashville in April 2020, and also the NIGP Annual Conference in Chicago in August. WESCO will identify opportunities to promote the MPA to agencies who (1) are not currently WESCO customers but OMNIA members and (2) are WESCO customers but do not have any purchasing agreements in place with WESCO. As an incumbent contract holder, we have a number of existing accounts which we would automatically move to the terms of the new contract, including the new pricing and increased rebate fee structure. Upon request of any agency in writing we would move them from an alternative pricing model, or contract structure, to the new Omnia agreement.

Since the OMNIA Partners contracts feature a lead public agency competitive bid process, we believe we will continue to find agencies, schools and non-profits that are interested in using the contract for their facilities MRO needs. We will also continue to educate our sales team about the benefits of selling through the Omnia cooperative agreement.

In addition moving forward, we would ask for one-on-one meetings between our Regional Government Managers, and their corresponding territory managers for the three business segments, to discuss opportunities to leverage relationships for the expansion of the WESCO/OMNIA contract. The schedule of these meetings would be tracked and reviewed by Jim Walters from OMNIA, and Rob Bezjak from the WESCO team, to ensure a timely re-engagement post award. The goal of these meetings would be to understand the current engagement through OMNIA Partners contracts, other WESCO contracts, and find the common ground for joint win opportunities.

WESCO's other cooperative contracts are listed below:

- Sourcewell – 121218-WES Facility MRO

H. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Management of the OMNIA Partners account is accomplished under the direction of WESCO's Account team. The Global Account Management structure will be as follows: A Global Account Manager (GAM) will be assigned the overall implementation of the agreement. A corporate sponsor will be assigned to help the GAM to implement the agreement. At each branch there is an Outside Sales/Account Executive and (Inside) Sales Support person assigned to each facility to take care of the day-to-day business with the members.

The GAM, Rob Bezjak, is responsible for the overall performance of the agreement between OMNIA Partners and WESCO. He works through the branch network that has local responsibility for the day-to-day activities related to servicing the local facility. In between, the GAM works with Regional Government Managers, eight in total, who have the local responsibility for implementation and working with the branches to ensure compliance with the agreement and meeting customer expectations.

In addition, as part of the WESCO Global Account organization, an administrative staff at headquarters is responsible for additional aspects of the agreement including pricing, supplier relations, reporting, and other activities. OMNIA Partners will be assigned a unique Global Account Number that triggers pricing on the national and local level and is loaded into our company-wide computer network with the customer-specific pricing.

WESCO branches and offices assigned to support the account are staffed with sales reps who can provide product application expertise, technical bulletins for the range of products marketed, and access to local manufacturer representatives. An Account Executive, as well as an Inside Sales support person would be assigned to support each location. Our account reps will make regular visits to the members so that they are available to support the needs of personnel and can typically be contacted via phone or email. Issues that arise related to quality and products can be responded to through local contact and field support procedures with ancillary assistance from factory personnel when required.

I. Explain in detail how the sales teams will work with the OMNIA Partners, Public Sector team to implement, grow and service the national program.

As an industry leader in Global sales implementations, and the current holder of multiple cooperative and group purchasing organization contracts, we have a win implementation process that we use. We are also open to any best practices you have, since you also have considerable expertise in implementations targeted at this customer segment.

WESCO has created a series of customized hard copy and online communications, to highlight the OMNIA Partners contract to eligible customers in the State, Local Government, Education and non-profit market. A press release will also be created, through our corporate communications team.

Internally, all documents and pricing information will be hosted on our FASTTRACK website, for easy access and use by our branches throughout the country. A separate tab for all OMNIA Partners information has been developed for the FASTTRACK site, as well as the customer facing information available at www.wesco.com.

While our 2020 Sales and Marketing Plan will already be in the process of being implemented, we are reserving some trade show alignment decisions for the ongoing relationship to be promoted, and will revise current collateral focused on the local government, and education markets, to be refreshed with OMNIA Partners contract information in the event we win an award, would look for the OMNIA regional trainings for the Regional Government Managers to attend to better understand strategies in promoting the contract and the expectations of the members.

In addition, we would propose to have OMNIA Partners managers also participate in training sessions with eligible agencies, and would also pursue a collaborative relationship with other OMNIA Partners suppliers, to expand success with existing agencies familiar with the OMNIA Partners contract for other supplies.

I. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

WESCO prides itself in creating a dedicated National Government Team that oversees the sales programs and contracts that are in place. WESCO has implemented an oversight process which ensures that all aspects of a contract are being followed according to the Scope and Terms & Conditions.

An internal webinar training presentation will be available, as well as hosted local and regional training sessions to be run by our SLED Regional Government Managers (RGM) Team. The Team consists of 8 RGM's located strategically across the U.S. that allows for a quick response to training and answer questions regarding the contract. Another of the key connectivity points will be regular internal messaging via email to the key personnel servicing the contract

WESCO has in place a CIG (Commercial, Institution, Government) sales force that focus on the SLED market. This team consists of more than 300 salespeople across the U.S. and attend continuous internal trainings in regards to Government Contracts and processes.

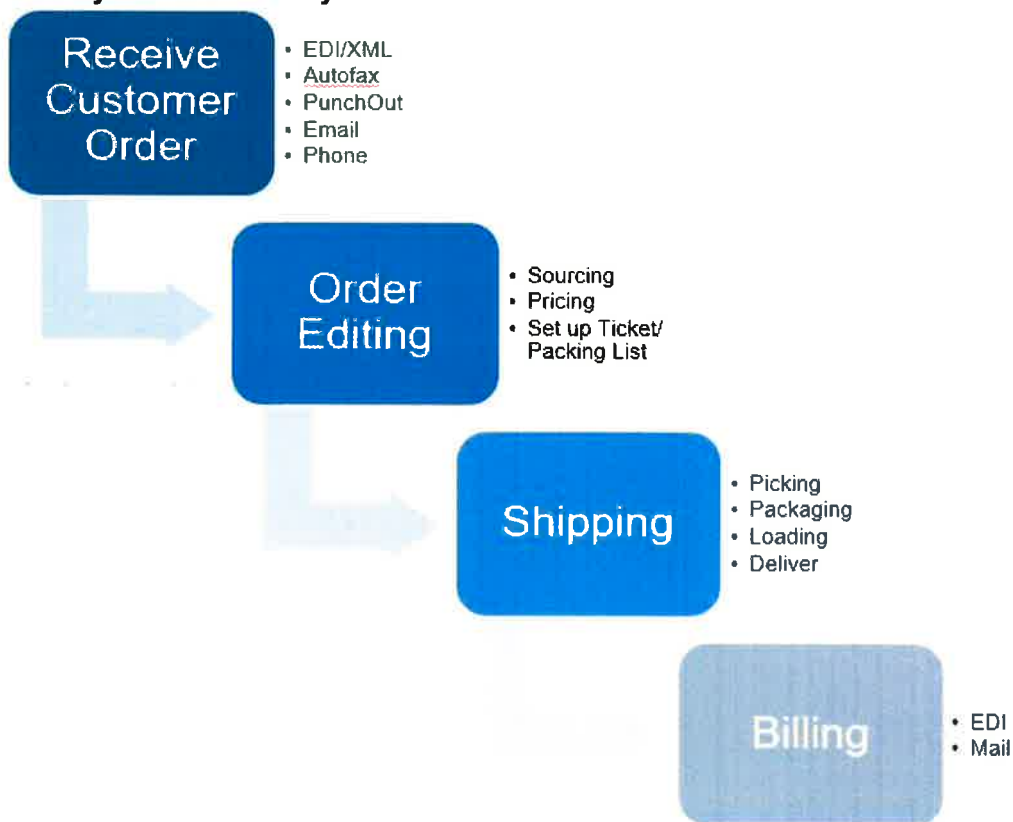

We have an internal website called FastTrack, which is the aggregation point for internal communication on SLED contracts and information. In addition, our Sales and Marketing team will conduct field training as needed, using the RGM's as the trainers, along with our Manager- SLED Business Development Eric Anderson, and Director and GM- SLED Market Rob Bezjak. Both have over 10 years of experience in cooperative contract management and promotion, and are familiar with the cooperative purchasing landscape, but also the local government and education associations key to leveraging relationships and promoting agreement's. Rob is a past President of the NIGP Business Council, and is WESCO's current representative to NCPP, as a founding Sponsor of the program.

K. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

L. Provide the Contract Sales (as defined in Section 10 of the OMNIA Partners, Public Sector Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

\$0.00 in year one

\$0.00 in year two

\$0.00 in year three

WESCO will not be offering Guaranteed Contract Sales

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners, Public Sector).**
- ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners, Public Sector under the Master Agreement.**
- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners, Public Sector).**
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.**

Detail Supplier's strategies under these options when responding to a solicitation.

WESCO would prefer to pursue business with using the OMNIA Partners master agreement as the basis for the response to eligible member agencies. In the event the agency chooses not to accept the OMNIA Partners agreement, we would either no quote the opportunity, or provide higher pricing than available through the contract.

In the event an individual quotation requires WESCO to price the opportunity at a lower level than the contract price due to large volumes or other special competitive conditions, we would still report the sale as through the contract. We reserve the right to jointly agree to a reduced fee as necessary in these cases, with the approval of OMNIA Partners management in advance of our quotation.

FEDERAL FUNDS CERTIFICATIONS

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

- (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
- (2) An agreement that provides only:
 - (i) Direct United States Government cash assistance to an individual;
 - (ii) A subsidy;
 - (iii) A loan;
 - (iv) A loan guarantee; or
 - (v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCO's).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

- (a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
- (b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is \$150,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these

regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."
