

	<b>Cave Creek Unified School District, #93</b> Notice of Award		33016 N 60th St Scottsdale, AZ 85266
	<b>RFP#: 20-08-25</b> <b>PROJECT: Job Order Contracting Services-General Contractors</b>	Page 1 of 1	

The District issued Request for Qualification 20-07-25 seeking General Contractors. The solicitation was issued as a cooperative contract for SAVE, the Strategic Alliance for Volume Expenditures. This cooperative is made up of school districts, cities, counties, and other public entities. A survey of members documented an annual spend of \$18 million per year. With this volume, it was noted that the award would be to at least three but no more than five firms. Projects have a maximum limit of no more than one (1) million dollars per project.

The RFQ was posted at AZPurchasing.org. The District received thirteen Statements of Qualifications. One firm was determined to be non-responsive. The Evaluation Committee met on March 5<sup>th</sup> and again on March 6<sup>th</sup> to read and score each response. The Committee was made up of our Director of Facilities, an administrative assistant, a procurement specialist from WEST-Mec, an architect with the firm One Architecture, and a representative from Rytan Construction.

The Evaluation Committee short-listed six firms move to the second level of the process which was to submit responses to RFP 20-08-25 for Technical Proposals and sealed cost information. These six firms were to respond by March 31, 2020 at 10:00 AM. Because of the COVID 19 pandemic, firms were asked to place their responses on a chair, call a number and someone would come out and timestamp and accept their response. Six responses were received by 10:00 AM and the same Evaluation Committee assembled to review the responses. After scoring the responses, the cost envelopes were opened. The Cost Points were distributed by formula.

Danson Construction, LLC was one of four firms awarded. Congratulations Danson.
